

Create Whimsical Palm Trees Using Watercolor Pencils

By Barbara Burns www.barbaraburns.com Copyright 2010 All Rights Reserved

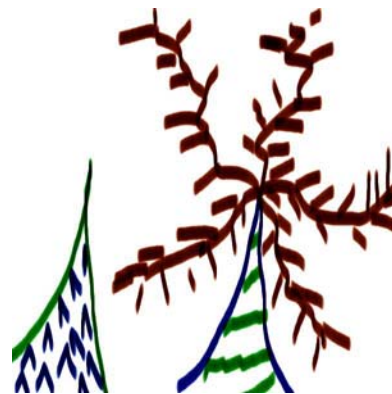

Step 1:

- Select the tree trunk color.
- Draw a large upside down V shape on your paper.
- Select the tree “bark” color.
- Draw either small upside down V shapes or use diagonal squiggly lines to fill the large tree trunk shape

Step 2:

- Select the tree branch color.
- Draw several out-flowing branch lines.
- Select the tree “leaves / twigs” color.
- Draw several out-flowing small lines.

OPTIONAL Step 3:

- Select the brush.
- Dip it in water or squeeze out a bit of water if using a water brush, as I do.
- Draw / paint the lines either individually or as a group as pictured here.

NOTE: Coloring inside or on the lines IS NOT a requirement. Enjoying the process is one goal and having a great doodled tree that makes you and others smile is the goal of creating whimsical palm trees.
